SUMMARY

More than 3 years' experience as an engineering technician using Siemens's technology to develop solutions and respond to clients' necessities.

I am currently searching for a position where I can collaborate with a team to achieve a common goal, develop new skills in the field of web development and contribute with my experience in coding, solution development and communication skills.

I believe a productive learning experience comes from a professional environment, therefor I am motivated to perform my future task and start a new chapter in my career.
